

Saturday Antique 1958-1975

5 mph speed

18 inch drawbar height

Classes (may vary)

8000

10000

13000

1. Maximum draw bar height is 18 inches.
2. Factory Pumps and Factory turbo allowed.
3. All Factory Equipment must intact (PTOs 3 point).
4. No essential equipment can be removed. Standard tread tractors require fenders.
5. 3 mph pace, No shifting up or down allowed during a pull.
6. Any fuel mixture will be grounds for disqualification.
7. Tractors must be natural aspired. No fuel injection or gas under pressure unless factory equipped.
8. Tractors are allowed factory rated horsepower or factory overhaul replacement horsepower. Judges have the right to check any tractor.
9. Tires must be unaltered factory tread. No cut tires allowed. Rim diameter cannot be any larger than original equipment.
10. Tractors will pull from the clevis fasten by a minimum of 3/4 inch hitch pin or fixed pulling eye of 3 inches. Each puller responsible for his or her own clevis. **Maximum draw bar height is 18 inches.** No closer than 18 inches to axles.

General rules apply to all pullers and track judges will have the final decision.
